THE COUNTRYSIDE CODE:

(This is an abbreviated extract. See www.countrysideaccess.gov.uk for the detailed code).

BE SAFE – PLAN AHEAD AND FOLLOW ANY SIGNS

LEAVE GATES AND PROPERTY AS YOU FIND THEM

Please respect the working life of the countryside, as our actions can affect people's livelihoods, our heritage and the safety and welfare of animals and ourselves.

PROTECT PLANTS AND ANIMALS AND TAKE YOUR LITTER HOME

We have a responsibility to protect our countryside now and for future generations, so make sure you do not harm animals, birds, plants or trees.

KEEP DOGS UNDER CLOSE CONTROL

The countryside is a great place to exercise dogs but it is every owner's duty to make sure their dog is not a danger or nuisance to farm animals, wildlife or other people.

CONSIDER OTHER PEOPLE

Showing consideration and respect for other people makes the countryside a pleasant environment for everyone – at home, at work and at leisure.

PLEASE NOTE: Some of the footpaths need to be walked in order to keep them open. Please report any problems to the Rights of Way team at Somerset County Council; www.somerset.gov.uk then search on 'Rights of Way'.

GENERAL WALKING ADVICE:

1 Wear sensible boots or shoes and socks suitable for walking in the countryside. These walks are not suitable for ordinary town shoes.

2 Wear or carry in your rucksack a good quality waterproof (not just showerproof) and windproof jacket; something with at least a hood or provision for a hood to be attached and with spacious pockets for maps, snacks, etc.

3 Wear suitable trousers. Everyday casual trousers are fine but may not be comfortable for longer walks. Modern synthetic walking trousers are lightweight, loose-fitting, quick-drying and have handy pockets. Shorts if the weather is fine but beware of nettles, brambles and ticks which are becoming more widespread. Denim jeans are not recommended because they take a long time to dry out if wet and can chafe.

4 Take suitable provisions (water/drink, food).

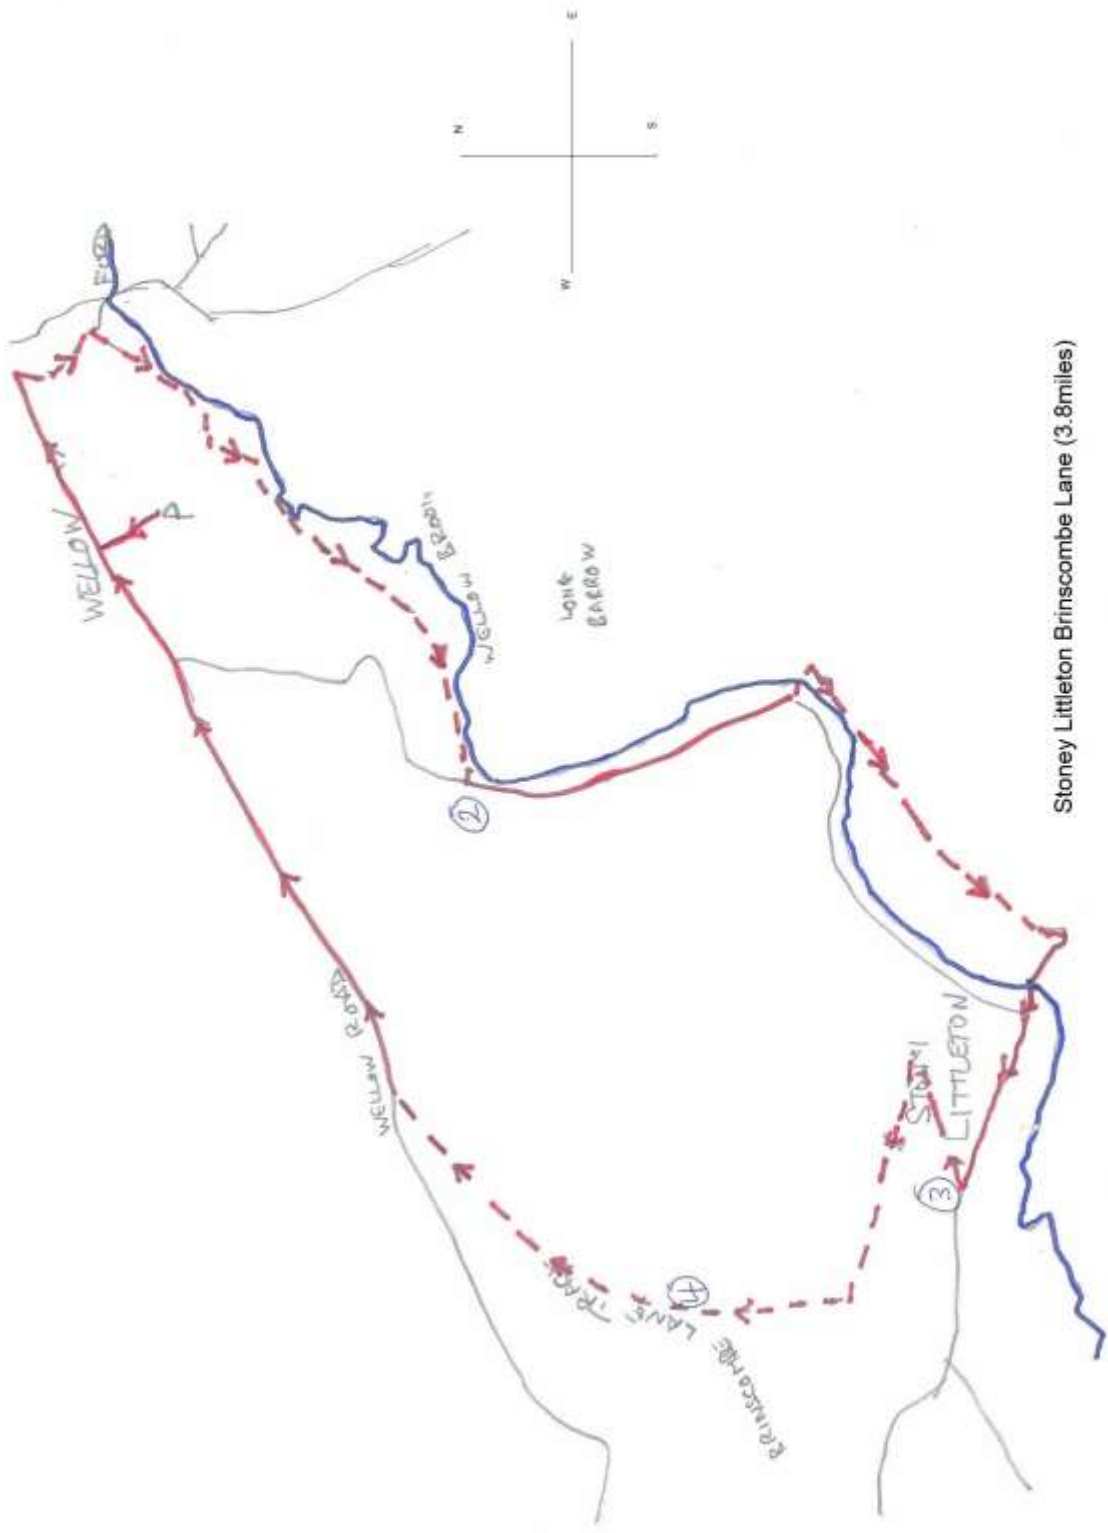

5 Use or carry gloves for cold weather.

6 Head covering is useful to keep the sun off and also keep you warm in cold weather. Also cream to avoid sun burn.

7 A rucksack or backpack is the best means of carrying what you need (including extra clothing); they leave the hands free and are far more comfortable than a shoulder bag over a long distance.

THE WALKS: (Start – Wellow Car Park Wellow – Ordnance Survey (OS) Grid Reference ST 738 581)

- The maps in this booklet are sketches. Each map is to scale but the scales vary and no scale is indicated.
- The walk descriptions are written by many different people and vary in style and detail.
- The walks have been graded (1 to 4), principally by length and height gain; 4 being the most difficult.
- The walk lengths are accurate to within ½ mile.
- The walks can be very muddy and steep in places.
- It is recommended that you use the map sketches and descriptions in conjunction with the relevant OS maps and a compass. Mendip Ramblers cannot be held responsible for any accidents or incidents that may occur whilst on these walks

Wellow falls within the southernmost boundary of the Cotswold Area of Outstanding Natural Beauty, and is recognised as having buildings of special historic and architectural interest. A little further to the west is a Neolithic burial chamber known as Stoney Littleton Long Barrow. A medieval packhorse bridge also spans Wellow Brook. The walk itself begins from the car park next to the old train station. Wellow Station, part of the Somerset and Dorset Joint Railway, closed in 1966. The main station building was converted into a house by the artist Peter Blake in the 1970s.

1. From the car park ST 738 581, pass the station and return to Wellow Road. Turn left at the junction, walk along the road for several hundred yards. You will observe historic cottages which are characteristic of Wellow. Continue past the village shop on your left and Old Orchard Cottage on your right, ignore the first bridleway on your right. Continue walking past the de restriction signs at the end of the village, then turn right onto the second bridleway.
2. ST 734 579 Walk through a gate, follow the path along the right of the field. Climb out of the valley, passing a barn. After a few minutes the track flattens out and then climbs again. The track bends left and becomes level. Go through a gate in the corner on your right and head left towards a stile. Continue along the track across the field, bearing half right. You will observe the striking views of the Wellow Valley behind you. During June of 1685, the rebel forces of the Duke of Monmouth may have brought their heavy guns through this countryside as they advanced towards Norton St Philip. The Duke, pretender to the throne, would suffer defeat at the Battle of Sedgemoor, followed by execution. Head towards the left hand corner of the field. Cross over the stile and turn left onto the track.
3. ST 725 582 Stay on the track until you come to a fork. Bear right at the fork, go down the track, and past Home Farm and a converted stone barn. After a lane joins from the right, continue on to a fork at Springhill House.

4. ST 718 582 Take the right fork up a small hill alongside Springhill House and then descend to the main Bath Road. Cross over onto the track opposite, continue for a short distance then turn right through a large metal gate into a field. Continue to descend keeping the hedge on your right. Do not enter the field on your right. Go through the gates and an often muddy area, coming back to the main road.
5. ST 716 592 Bear left down the road, then cross, taking care of the traffic. Take the steep steps and cross over a stone stile onto a path in the field, this is the Limestone Link. Keeping the Cam Brook immediately to your right, follow the path through the field, crossing a footbridge. Walk through the next field, still keeping the Cam Brook to your right and cross over a second footbridge. Continue in the same direction then go through a kissing gate into a lane. Cross the lane, go through a second kissing gate and follow the path into a field. As the Cam Brook bears right, bear left up the slope towards another kissing gate. Go through the kissing gate, leaving the conservation area. Continue up, across rough grass to the Combe Hay Road.
6. ST 732 599 Turn right into the village and continue down the road for several hundred yards until you reach the village church with its fifteenth century tower. Combe Hay was known as Cumb in the Domesday Book of the eleventh century, part of the Wellow Hundred. The village is also notable for the Georgian Combe Hay Manor and Georgian rectory. After visiting the church continue along the road and turn right at the junction. The road descends and bears round to the right, take the bridleway on the right by the bungalow known as Hen and Chicken Court. Go down the bridleway and cross the Cam. Note the stone stepped weir on your right. Continue on and up into a field climbing out of the Cam Valley. Go through a gate and up a wide track past a usually boggy patch. Continue to climb, going through trees. Cross an open area, go through a gate and follow woodland on your right. On reaching the barbed wire fence, stay in the field and turn left with the hedge on your right. Follow this along and round. The valley opens out before you to your left, with views towards Midford and Brassknocker Hill. A gate at the end leads onto a track, turn right to the hamlet of Twinhoe.
7. ST 748 596 At the T junction turn left then bend right to reach another junction, with Upper Twinhoe Farm on your right. Turn right and follow the lane uphill for several minutes. On the right hand bend, ignore the kissing gate on your left and go straight through a small metallic gate. Follow the left hedge of the field,

going towards Wellow, down in the valley. Reach the hedge corner. The footpath continues straight across the field to a metallic kissing gate. The church can be seen in front of you below. Continue down to go through the next two kissing gates. Head towards the right of Wellow church. Head towards the twin trunks of an ash tree ahead and come onto a path through a kissing gate. Follow this fenced path down and then bend right. Go along the fence and make a left turn down the side of the church wall and out onto the road in Wellow. Turn right past the village school, the Fox and Badger pub, and continue back to the car park.
